

Listener representative report for the A.G.M. 2019 for the Birmingham Talking Newspaper Association.

This report is brief and contains few words. But one can be encouraged by the few words in this report.

The overall standard has been good. Though there have been a few mistakes and I have to emphasise that is only a handful! Any errors that I have spotted have been reported to Danny Collman. The overall clarity has been excellent and the pronunciation as well. It is good and refreshing to hear new volunteer readers coming on stream with the existing readers. The content of all the magazines have been interesting to hear.

As a critical listener I listen for the following.

1. Pronunciation.
2. Sentence sense. Is the flow of words make overall sense.
3. Item content. That is – Is it relevant and interesting subject.

I hope that this brief report meets your approval.

John Alexander
